

World I Understand

The Sherlocks

So long to the bitter days
So long to everything you say
I try but I just can't stay with you, with you

Oh you, if I don't mean nothing then you
Wouldn't follow me up but I knew
You'd just follow me up then get on, get on

You take me to a world I understand
I follow every word you say
You take me to a world I understand, yeah

So long to the forgiving days
They're gone now, they blew away
We tried but we've got to face the truth, it's you

You, if I don't mean nothing then you
Wouldn't follow me up but I knew
You'd just follow me up then get on, get on

You take me to a world I understand
I follow every word you say
You take me to a world I understand, yeah
I needed love, I've seen enough
Now nothing can stop this feeling I've got
Are you leading me on? Am I reading it wrong?
Still nothing can stop this feeling I've got
Still nothing can stop this feeling I've got

You take me to a world I understand
I follow every word you say
You take me to a world I understand, yeah
I needed love, I've seen enough
Now nothing can stop this feeling I've got
Are you leading me on? Am I reading it wrong?
Still nothing can stop this feeling I've got
Still nothing can stop this feeling I've got
