

Make the Night a Little Longer

The Shirelles

My days are years
'Cause I don't see my baby
Till the stars are in the sky
And every night when we can be together,
Time just seems to hurry by

So Lord, I'm beggin' you to
Make the night (just a little longer)
Make the night (just a little longer)
So I can kiss him (just a little longer)
And hold him tight (just a little longer)

You made the world the way you thought it should be
So won't you make the night a little longer for me?
My nights are warm
'Cause when he hugs & holds me,
everything just feels so fine
But Lord, you know
I hate to see the sunlight,
takes away that man of mine

So Lord, I'm beggin' you to
Make the night (just a little longer)
Make the night (just a little longer)
So I can kiss him (just a little longer)
And hold him tight (just a little longer)

(Just a little longer, just a little longer)

So Lord, I'm beggin' you to
Make the night (just a little longer)
Make the night (just a little longer)
So I can kiss him (just a little longer)
And hold him tight (just a little longer)
Then embrace his arms (just a little longer)
...
