

# Crazy Days

The Shires

If you miss me  
Just say you miss me  
If you're lonely  
Just tell me that you're lonely  
But please don't say you're not sure  
You can take any more  
This isn't what you signed up for  
Don't I know  
All I wanna be is with you at home

But these are the crazy days  
We'll look back and smile on  
Whatever it takes days  
And we gotta stay strong  
All these roads are putting miles on my heart  
Every moment, every second we're apart  
Babe  
These are the crazy days  
These are the crazy days

When I close my eyes  
I see you and forever  
Growing old  
Somewhere in the Country together  
I can see my coat hanging by the front door  
Won't be locking it from outside no more  
No, I'll be sleeping by your side  
Every night at home

These are the crazy days  
We'll look back and smile on  
Whatever it takes days  
And we gotta stay strong  
All these roads are putting miles on my heart  
Every moment, every second we're apart  
Babe  
These are the crazy days  
These are the crazy days

One day we'll have all the time in the world  
So whenever it hurts  
Just close your eyes  
Take a breath  
And realise  
These are the crazy days  
Crazy days

These are the crazy days  
We'll look back and smile on  
Whatever it takes days  
And we gotta stay strong  
All these roads are putting miles on my heart  
Every minute, every second we're apart  
Babe  
These are just the crazy days  
These are just the crazy days  
These are just the crazy days

These are just the crazy days
