

Drive

The Shires

I've been staring at your number for so long baby
That your red lipstick on the paper yeah it's kind of faded
I haven't got a plan, no, I can't think ahead that far
But I got a call

And I just wanna drive
Somewhere in the night
And I don't wanna waste your time
No, I just wanna drive, drive, drive
And I don't really know
Where we're gonna go
No telling what we're gonna find
No, I just wanna drive, drive, drive
I just wanna drive
I just wanna drive

I'm half awake, trying to make sense of what you're saying baby
But you're going round in circles, yeah you're sounding just a little
bit crazy
But if you mean what you say and it ain't just another lie
Oh I can be ready in five

And I just wanna drive
Somewhere in the night
And I don't wanna waste your time
No, I just wanna drive, drive, drive
And I don't really know
Where we're gonna go
No telling what we're gonna find
No, I just wanna drive, drive, drive
I just wanna drive

Woah, woah
'Til the sparks from my heart are burning bright
'Til there's more stars than city lights
'Til the sparks from my heart are burning bright
Burning bright

I just wanna drive
Somewhere in the night
And I don't wanna waste your time
I just wanna drive, drive, drive
And I don't really know
Where we're gonna go
No telling what we're gonna find
I just wanna drive, drive, drive
I just wanna drive
I just wanna drive
