No Secrets

The Shires

Yeah we fight when we're tired baby you and I
We ain't perfect we work at it day and night
We can hurt but it works baby you and I

Who you're with? Where you've been?
That's not us, never has been
We've got no secrets, no

You can tell me anything
No judgement, just listening
Got no secrets, no

You can put your hand on my heart
I'll swear to you honestly
Nothing but the truth
Is all that you'll get from me

Yeah we fight when we're tired baby you and I
We ain't perfect we work at it day and night
We can hurt but it works baby you and I
We never lie
Our only secret
Is we got no secrets

Some tiptoe round the conversation
That's not us we just say it
You make it easy
Easy to say the hardest words

You can put your hand on my heart
I'll swear to you honestly
Nothing but the truth
Is all that you'll ever gonna get from me

Yeah we fight when we're tired baby you and I
We ain't perfect we work at it day and night
We can hurt but it works baby you and I
We never lie
Our only secret
Is we got no secrets

Is we got no secrets

Our only secret
Is we got no secrets
