

Only Always

The Shires

I remember when forever was you and me
I'd ask you, baby, "How long are we gonna be?"
You said, "Always"
I remember every up all night, candlelight
Every kiss like the first time, I thought we were gonna be
Always, always

Do you ever miss me, wish we just could have figured it out?
Do you ever wonder if I'm somewhere near you right now?
And are you ever lonely, feeling like the only one who's heart
won't ever change?
Do I ever think about you still that way?
Only always
Only always

I remember laying by your side, out out of reach
Saying, "Baby, what happened to you me?"
And always
I remember the tears I couldn't hide
Knowing that goodbye was really the last time
It's always on my mind

Do you ever miss me, wish we just could have figured it out?
Do you ever wonder if I'm somewhere near you right now?
And are you ever lonely, feeling like the only one who's heart
won't ever change?
Do I ever think about you still that way?
Only always
Only always

I remember when forever was you and me
Baby, I thought we were gonna be always

Do you ever miss me, wish we just could have figured it out?
Do you ever wonder if I'm somewhere near you right now?
And are you ever lonely, feeling like the only one who's heart
won't ever change?
Do I ever think about you still that way?
Do I ever hope I hold you again one day?
Only always
Only always
Only always
