

# People Like Us

The Shires

People like us wake up at ten  
Open our eyes and close 'em again  
Some people say people like us  
Are not doing enough

People like us don't play pretend  
Two misfits who don't fit in  
Some people think people like us  
Don't have much

But when I look in your eyes  
And you're looking in mine I

Don't care if people like us  
'Cause I like us just the way we are  
Never a one way street  
For you and me  
I don't care if people like us  
'Cause I like us just the way we are

People like us we make mistakes  
Just so we can kiss and make up

People like us don't hold a grudge  
Live and let live maybe love too much  
But that's alright 'cause I

Don't care if people like us  
'Cause I like us just the way we are  
Never a one way street  
For you and me  
I don't care if people like us  
'Cause I like us just the way we are

Just the way we are

Woah  
Don't go changing  
Woah  
No matter what they're saying  
'Cause I

Don't care if people like us  
'Cause I like us just the way we are  
It's never a one way street, no  
For you and me  
I don't care if people like us  
'Cause I like us just just just the way we are

Just the way we are

People like us
