

Speechless

The Shires

I love it when we talk, we could talk for hours
I hang on everything you say
Oh I love to hear your voice, but you, me and the silence
And the way you look at me that way

Words, words, words
We don't need words tonight
'Cause I can hear you
With one look in your eyes
Yeah, you're saying it all without saying a thing at all
Let's speak less, keep loving me speechless

Your kiss says 'I want you', your smile says 'forever'
There's no doubt about it right now
I know exactly what you're saying, it's not complicated
Just keep on loving me without a sound

Words, words, words
We don't need words tonight
'Cause I can hear you
With one look in your eyes
Yeah, you're saying it all without saying a thing at all
Let's speak less, keep loving me speechless
Keep loving me speechless

Words, words, words
We don't need words tonight
We don't need words tonight
Keep loving me speechless

Words, words, words
We don't need words tonight
'Cause I can hear you
With one look in your eyes
Yeah, you're saying it all without saying a thing at all
Let's speak less, keep loving me speechless
Keep loving me speechless
Loving me speechless
