

## When It Hurts

The Shires

You say, tomorrow, you'll wake up and I'll be gone  
You wouldn't blame me if I let go on this all-  
time low you're on  
Now come on baby

I made a promise and you're still the one  
I'm not just in this for your days in the sun

I'll love you when it hurts  
I'll love you at your worst  
Through every storm  
When the wolf's at the door  
I know what it's worth  
'Cause I love you when it hurts

It's not always roses  
Real lovers know it takes guts  
To keep on fighting through the years  
There's gonna be heartbreak and tears for the both of us  
Come on baby

I made a promise, it's my turn to be strong  
I'm not just in this for your days in sun, no

I'll love you when it hurts  
I'll love you at your worst  
Through every storm  
When the wolf's at the door  
I know what it's worth  
'Cause I love you when it hurts

I made a promise  
Don't push me away  
Baby, I'm in this  
There's no halfway

I'll love you when it hurts  
I'll love you at your worst  
Through every storm  
When the wolf's at the door  
I know what it's worth  
'Cause I love you when it hurts  
I'll love you when it hurts
