World Without You

The Shires

Do you ever wonder?
Does it ever cross your mind?
If we'd never met
Well I think about it sometimes
I don't remember
What those days were like
And I don't want to
I don't even wanna try

There'd be no stars in my sky, light in my life
Baby, where would I be?
No fire, no spark, beat in my heart
I wouldn't be me
Don't know what I'd do
In a world without you, ooh
In a world without you

Every day, the sun would still come up
Nothing would change, the world would still turn
And I'd say "I'm doing fine"
But I'd be lying 'cause there's only one truth
Everything I am begins and ends with you

There'd be no stars in my sky, light in my life
Baby, where would I be?
No fire, no spark, beat in my heart
I wouldn't be me
Don't know what I'd do
In a world without you, ooh
In a world without you

There'd be no stars in my sky, light in my life
Baby, where would I be?
No fire, no spark, beat in my heart

There'd be no stars in my sky, light in my life
Baby, where would I be?
No fire, no spark, beat in my heart
I wouldn't be me
Don't know what I'd do
In a world without you, ooh
In a world without you

In a world, in a world, in a world without you, ooh
In a world, in a world, in a world without you
In a world without you
