

## Mindless

### The Skints

People out on the streets are living in fear, giving in to fear  
I don't interfere with them problems but you know that I'm here  
Panicking like mannequins to a system that never hears us  
Them ah need to fear us, them ah need to fear us  
So many times yah seen them crushed right under the thumb  
From the pressure that come with capitalist consumption  
And so many times yah know we seen ah them ah come ah free  
From the oppressions of an addictive personality

So don't be so mindless  
Carry yah mind external  
Selflessness is the key  
Don't be so mindless  
Carry yah mind external  
Selflessness is the key  
Don't be so mindless  
Carry yah mind external  
Selflessness is the key  
Don't be so mindless  
Carry yah mind external

But you're gonna beat them down, kick ah them outta town  
Better pull your shit together 'cause we ain't fuckin' around  
I see politician, politician, politics, head on a stick, Polaro  
id picture  
Making me sick everyday when I'm sifting through them newspaper  
clippings  
And I can't get no benefits because the Job Centre take them aw  
ay  
And I can't get no job because there ain't no decent jobs out t  
here today  
And I'm just getting by with my music, loving the records and s  
hows that we play  
In this time of financial recession won't you just let me, let  
me have my way?

Be my way  
Never never never gonna be my way  
Never never never gonna be my way  
Never never gonna be my way

I said  
Never never never gonna be my way  
Never never never gonna be my way  
Never never never gonna be my way  
Never never gonna be my way
