Come follow me now to the start of the race  
Everybody on their marks time to pick up the pace  
Starting pistol at the ready as we ready for the chase  
My heart thump thump, sweat ah run down my face  
And the gun go shot! Every man be hot on my trail  
Gotta keeps my wits about me cause I need to prevail  
And how, the race has only begun just now  
And I leave them in a fat dust cloud

I can't fail, I gotta show them that I've got what it takes  
I gotta show them that I won't put on the brakes  
I gotta show them that I'll make my mistakes  
Cause they're mine and I can't run away

Cause I see them nuff vampire  
Pure bloodsucker  
Stake to the heart now it's started  
Snake in the grass, mate you're bater than Carnage  
Take this to the grave  
Amen, you're departed  
And if it ain't about money  
Why's your hand inna my pocket?  
Sure ain't a joke but I'm standing here laughing  
Tank when I'm warring  
Mandem applauding  
Talk about true colours? Prick I'll run you red while I'm barring

Well I'll never let another man slow me down  
Reconsider life but it's not the same  
And if you're listening you know my vocals come from my mouth  
And you know it came to life in my brain  
No, I'll never let another man write my songs  
Put me in a little thong when I know I'm making their Wonga!  
Spending all the money that I make them on another young thing with a bumper  
Little bit of talent when she sings, but no comfort  
Wine up on my airwaves looking like Oompa Loompa  
See her mouth ah moving but she mime to her songs, yah  
Got an awful lot of love fi Rubadub gone suddenly my pain
