

## The Search

## The Skints

Last call at the bar  
But we wanna talk longer  
I don't live too far  
We could sip something stronger

Our route is lit up by the stars  
We could walk, we could wander  
Or we could dance till dawn  
Both singing like songbirds

Ooh, I'd let you possess my universe  
I'm starting to think I'm falling victim to your curse  
Don't they say that the good ones get what they deserve?  
We've been looking so long now  
We're calling off the search

Walk me to my car  
Or should I stay longer?  
If you don't live too far  
Something stronger sounds fun, yeah

Moonlight  
Reflects like a harmony  
Your eyes pick up the glow  
And send it back to me

Tonight...  
The air is sweet like a melody  
So I...  
I take a sip, you'll sing it back to me

Ooh, I'd let you possess my universe  
I'm starting to think I'm falling victim to your curse  
Don't they say that the good ones get what they deserve?  
We've been looking so long now  
We're calling off the search
