

You Better

The Skints

Dumbfounded like a brick trying to float on the water
You've been trying to hide away
But they've finally caught ya
Soaked in shame and been down to the floor
Heart is biting down hard like a glass jaw
You spend your life
Within the panoramic negative
Wasting your days
In a haze
Running round like a fugitive
Ah you're getting so big in those boots
I bet you forget just what you do to me
So burst and float back down to earth
You better rethink what you know
You better reap those seeds you sow
You better unlearn what you have unlearned
You better burn them bridges-a them a burn
Cos when we combine our efforts you will see
That it's not about you it's not about me
We create this thing together.....
Ooh oh wooh-oh oh oh
M mmm mmmm mmm mmmmmmmmm..
Mm mm whooh-o-o-o a woh oh a woh a ya wooahhh....etc
You spend your life
Within the panoramic negative
Wasting your days
In a haze
Running round like a fugitive
Sh you're getting so big in those boots
I bet you forget just what you do to me
So burst and float back down to earth
You better rethink what you know
You better reap those seeds you sow
You better unlearn what you have unlearned
You better burn them bridges-a them a burn
Cos when we combine our efforts you will see
It's not about you it's not about me
We create this thing together
Come release my life
I really want to try
I really want to rise above it all
Come release my soul

Im gonna make it rise above it all
