

## Old Dog

The Slackers

I'm just an old dog  
Laid to rest and in my bed  
Lickin' my wounds  
Master shot me in the head  
I'm just an old dog  
Laid to rest and in my bed  
Lickin' my wounds  
Master shot me in the head

If I could have one more time  
If I could have one more time  
If I could have one more time  
If I could have one more time

To howl at the moon  
Chase pigeons and eat  
Have the world at my feet  
I would give anything  
La la la (x4)

All night long  
I drink whiskey from my dish  
I dream of yester days  
And I hope and cry and wish  
I wish my master had the heart  
not to shoot his old dog  
But I have no teeth left  
And I'm pink, just like a hog

If I could have one more time  
If I could have one more time  
If I could have one more time  
If I could have one more time

As they lay me down  
The sleep, it fills my eyes  
I hear my master load his gun  
And then he shoots me twice  
And as I fade to black  
I think about my youth  
The days when I was strong  
And the world was so new

If I could have one more time  
If I could have one more time  
If I could have one more time  
If I could have one more time

I'm just an old dog  
I'm just an old dog  
If I could have one more time (Etc.)
