Watch This

The Slackers

I said man you better watch this She's gonna make a take down She's gonna make you do right She's gonna make youy stay 'round

I said man you better watch this She's gonna make you do right She's gonna keep you inside Make you stay around all night

When you wanna be free As free as a bird in the trees And you wanna be free As free as you wanna be

Now a bee in a birds nest never made no honey And a bird in a hive sang no song God makes the man, man makes the money So who am I, who am I to judge?

Watch it, watch it, watch it, watch it x4

I said man you better watch this She's gonna make you do right, She's gonna keep you inside Make you stay around all night When you wanna be free As free as a bird in the breeze And you wanna be free As free as you wanna be

Now I cry but I can't complain I supply my own ball and chain And I'm tied tighter than the races So who am I, who am I to judge?

Watch it, watch it, watch it, watch it x4
