

## Sharp Scratch

### The Slow Show

Didn't hear what they say  
I was looking away  
A sharp scratch away from knowing  
It's a hell of a fright  
But I'll be out like a light  
Is there blood on my brain tonight?

Maybe we're better not knowing  
But the pain sticks around, it's not going  
Won't you help me to see what's to come?  
Sharp scratch and blood will come

Sharp scratch and blood will come

But I'll be alright  
I'll be out like a light  
This time tonight  
We'll be alright  
We'll go down with a fight  
Is there blood on my brain tonight?

Maybe we're better not knowing  
But the pain sticks around, it's not going  
Won't you help me to see what's to come?  
Sharp scratch and blood will come

Sharp scratch and blood will come
