

The Fall

The Slow Show

Can't stand the pain, I've tried for days, I can feel it all
Won't walk away, this stops today, I can see it all
Don't try and call me down
This stops, it's over now

This is a call for love
Because I can't stand it all
I've tried to call
I've tried to call

Can't stand the pain, I've tried for days, I can feel it all
Won't walk away, this stops today, I can feel it all
Can't stop the pain, I've tried for days, I can feel it all
Won't walk away, this stops today, I can see it all

Don't try and call me down
This stops, it's over now
This is a call for love
Because I can't stand it all
And I've tried to call
And I've tried to call

Close your eyes, don't watch me fall
Won't take long, won't hurt at all
Close your eyes, don't watch me fall
Won't take long, won't hurt at all
