

## Anywhere You Are

The Smithereens

Little baby, are you all alone tonight?  
In my dreams, you love me, everything's all right  
Should have told you that I loved you all along  
When I try to speak, the words all come out wrong

And I'm still enchanted by your funny ways  
And I'm gonna love you for the rest of my days  
And heaven is never very far, anywhere you are

In my lonely room, I think of you again  
Lazy afternoons and gentle falling rain  
Night and day and all these tears I cry for you  
Can't believe this is the end, goodbye, we're through

'Cause I'm still enchanted by your funny ways  
And I'm gonna love you for the rest of my days  
And heaven is never very far, anywhere you are

And I'm still enchanted by your funny ways  
And I'm gonna love you for the rest of my days  
And heaven is never very far, anywhere you are

Little baby, are you all alone tonight?  
In my dreams, you love me, everything's all right  
Should have told you that I loved you all along  
When I try to speak, the words all come out wrong

And I'm still enchanted by your funny ways  
And I'm still gonna love you for the rest of my days  
And heaven is never very far, anywhere you are

And I'm still enchanted by your funny ways  
And I'm still gonna love you for the rest of my days  
And heaven is never very far, anywhere you are
