

## Even If I Never Get Back Home

The Smithereens

I'll be leaving in the morning, you'll be fast asleep  
Many of miles of road between us, still in trouble deep  
Hear my prayer and listen to me, no more will I roam  
I will still be here beside you even if I never get back home.

Stop a while and then you listen, footsteps in the dark  
Rustle in the wind you'll find me never far apart  
Hear my prayer and listen to me, no more will I roam  
I will still be there beside you even if I never get back home.

Even if I never get back home  
Even if I never get back home

Hear my prayer and listen to me, no more will I roam  
I will still be there beside you even if I never get back home.

Even if I never get back home
