

If The Sun Doesn't Shine

The Smithereens

It was on a day just like this
That I first met you and we shared a kiss
Things that used to matter
Are no longer on my mind

Now, it don't matter to me if the sun doesn't shine

Lie in bed Saturday and hide
'Cos autumn leaves went, it rained outside
No one else could touch us
There's nothing that they can find

Now, it don't matter to me if the sun doesn't shine

If the sun doesn't shine anymore
It won't matter much, much to me
As long as you are here by my side
I am free, I am free

If the sun doesn't shine anymore
It won't matter much, much to me
As long as you're here by my side
I am free, I am free

The years have passed and our love has grown
World is rough but you're not alone
Things that were so important
But no longer on my mind

Now, it don't matter to me if the sun doesn't shine
Now, it don't matter to me if the sun doesn't shine
Now, it don't matter to me if the sun doesn't shine
