

## Something New

The Smithereens

It is time for something new  
For us to do  
So darling, dry your eyes  
It's time for something new

It is time for something new  
I still love you  
We tried but it won't work  
It's time for something new

Something new is what we need  
Something new, we have agreed  
It is time for us to look  
For something new

Something new is what we need  
Something new, we have agreed  
It is time for us to look  
For something new

Now it's time, for something new  
I want a clue  
Will hold you in his arms  
It's time for something new

Something new, something new  
It's something new
