

Too Much Passion

The Smithereens

When I kiss your lips I just don't want to behave
My passion runs deeper and girl I'm not afraid
To bare my heart and soul and let it all tumble out
But if you say the word you'll have me talkin' about

When I kiss your lips, I just don't know where I stand
My passion runs deeper and things get out of hand
I'll bear my heart and soul and let it all tumble out
But if you say the word you'll have me talkin' about

Too much passion girl whenever we touch
Too much passion girl there's never too much
Too much passion girl it's never enough
Too much passion is not enough
Too much passion is not enough

Whenever you touch me I feel a fire inside
My feelings that I have for you I just can't hide
I'll bare my heart and soul and let it all tumble out
But if you say the word you'll have me talkin' about

Too much passion girl whenever we touch
Too much passion girl there's never too much
Too much passion girl it's never enough
Too much passion is not enough
Too much passion is not enough

When I kiss your lips I just don't want to behave
My passion runs deeper and girl I'm not afraid
To bare my heart and soul and let it all tumble out
But if you say the word you'll have me talkin' about

Too much passion girl whenever we touch
Too much passion girl there's never too much
Too much passion girl it's never enough
Too much passion is not enough
Too much passion is not enough
Too much passion is not enough
Too much passion is not enough (not enough)
Too much passion is not enough
Too much passion is not enough
Too much passion is not enough
