

I've been running circles around it
Playing it down
And would I fall to pieces
Would I be okay without you now?

I don't care, could be anytime
Could be sunset or sunrise
Smoke, clouds or satellites
Armageddon, we'll be alright

It's you that I'm tied to
Break my neck, my back, yeah, I'd dive too
The edge of hell and back, yeah, we'll shine through
I don't mind dying, if we die together

I've been looking back through photographs
Of summer stars and foreign cars
Love isn't hard with you

When we went all out drunk on an aeroplane
Where did we go again?
I don't know, but it don't matter
If we crash in the ocean, we can hold hands
Or, face down in an avalanche
Our love will last

It's you that I'm tied to
Break my neck, my back, yeah, I'd dive too
The edge of hell and back, yeah, we'll shine through
I don't mind dying if we die together

Don't let go, stay awake with me
It's only love, stay awake with me
Don't let go, stay awake with me
Don't drift away from me

It's you that I'm tied to
Break my neck, my back, yeah, I'd dive too
The edge of hell and back, yeah, we'll shine through
I don't mind dying if we die together, yeah

I wanna throw my hands up
I just wanna scream it, baby
I don't wanna live here without you
I wanna throw my hands up
I just wanna scream it, baby
I don't wanna live here without you

It's you that I'm tied to
Break my neck, my back, yeah, I'd dive too
The edge of hell and back, yeah, we'll shine through
I don't mind dying, if we die together
