

Dreams

The Snuts

Did I hear you say
We're made for each other
Breakfast in bed
The suns up forever
You're Romer than Paris
You're Prettier too
I must be dreaming
How did I find you

Hey, I know
You're a golden child
You're a million miles better
Hey, I'm sure
I'm in love with you
And nothing feels better

Lately, I've been
Manifesting
That I'm king
And your queen

Never in my wildest dreams
Would you be all mine
Like it's meant to be

Never in my wildest dreams
Would you be all mine
Like it's meant to be

We should live in Hollywood
Closer to heaven
I'm talking late night snacking
At a seven eleven
I wanna sleep well
Yeah
I wanna sleep well
Yeah

Hey, I know
You're a golden child
You're a million miles better
Hey, I'm sure
I'm in love with you
And nothing feels better

Never in my wildest dreams
Would you be all mine
Like it's meant to be

Never in my wildest dreams
Would you be all mine
Like it's meant to be

It's just the pillow talking
But you know that I mean it when I say
That I'm locked in
Darling you're my everything

That I need
I'm screaming
That I'm king
And your queen

Never in my wildest dreams
Would you be all mine
Like it's meant to be

Never in my wildest dreams
Would you be all mine
Like it's meant to be
