

Knuckles

The Snuts

It's been a long time since you been all mine
Are you up, babe?
It's been a long road since you found God
Was He up there? Was He? Fuck yeah

Took you a minute, you've been punching the light
It's been a hard day's night
It's kind of like when you fight your way out, show me your knuckles, baby

Kind of like when you fight your way out, show me your knuckles, baby
Kind of like when you fight your way out, show me your knuckles, baby

It's like the sun was fear and the moon was God
Tell me something I don't know
Put 'em up, let's go

Took you a minute, you've been punching the light
It's been a hard day's night

Kind of like when you fight your way out, show me your knuckles, baby
Kind of like when you fight your way out, show me your knuckles, baby
Took you a minute, you've been punching the light
It's been a hard days night
It's kind of like when you fight your way out, show me your knuckles, baby
Show me your knuckles, baby
Show me your knuckles, baby

Kind of like when you fight your way out, show me your knuckles, baby

Kind of like when you fight your way out, show me your knuckles, baby
Kind of like when you fight your way out, show me your knuckles, baby
Ooh, yeah, took you a minute, you've been punching the light
It's been a hard days night
It's kind of like when you fight your way out, show me your knuckles, baby
Show me your knuckles, baby
