

Mixer

The Snuts

And I watched you in the water
Watched you wash it all away
And you're frightened of something
But you don't know how to say
And I know you're feeling grounded
When you're on your knees again
And I know you feel like drowning when you call him up again

Wonder where you're going wrong
Wonder where you're going
Wonder where you're going
Wonder where you're going wrong
Wonder where you're going wrong

And I know you've been mistaken
God forsaken, once or twice
And I know when you feel in danger
You feel in danger all the time
And I know when you're feel restless
Cause you're dancing, baby, all alone
And I know when you're feeling helpless
Cause you'll go anywhere but home

Baby, how you feeling tonight?
Baby, how you feeling?
Baby, how you feeling?
Baby, how you feeling tonight?
Baby, how you feeling tonight?

So, baby how you feeling?
When you run and see him tonight?
Your favourite vodka mixer
It kinda tricks your mind
Oh, there's no hidden glory
No Cinderella story this time
So, baby how you feeling in the morning this time?

Give it all away
Do you want it back now?
Is it all too late?
Do you want it back now?

Cause you can't stop, won't stop
Ready for your last drop, home
Cause you can't stop, won't stop
Ready for your last drop, home

So, baby how you feeling
When you run and see him tonight?
Your favourite vodka mixer
Kinda tricks my mind
