

NPC

The Snuts

Going on a daydream trip
Out the idiot box
Why won't you come along?
All that I got is this dumb phone
Killing me softly on my way home

To my N.P.C.L.I.F.E.
This happy meal reality is absolutely killing me
Teeth, bed and my routine
This Netflix binge to get to sleep
What a disaster man, I got a better plan

I really wanna get away
Melatonin set me free
I just wanna climb inside my dream machine

Turn it off, close my eyes, get my head down
Feel no pain when I dream and I pass out

Life's a bitch, flip the switch
I just check out
Hit the sack, welcome back to my paradise

How long have I been out of it?
I just need 5 more minutes

Altering my mind
R.E.M in overdrive
What the hell is my life?
Maybe I'll just close my eyes

Turn it off close my eyes get my head down
Feel no pain when I dream and I pass out

Life's a bitch, flip the switch
I just check out
Hit the sack, welcome back to my paradise

Turn it off close my eyes get my head down
Feel no pain when I dream and I pass out

Life's a bitch, flip the switch
I just check out
Hit the sack, welcome back to my paradise

I wanna wanna wanna
I really wanna
I wanna stay in bed all day, I wanna (haha)
I wanna wanna wanna
I really wanna
I wanna wanna wanna
Wanna wanna wanna wanna wanna, wanna, wanna

Turn it off close my eyes get my head down
Feel no pain when I dream and I pass out

Life's a bitch, flip the switch

I just check out
Hit the sack, welcome back to my paradise

Turn it off close my eyes get my head down
Feel no pain when I dream and I pass out

Life's a bitch, flip the switch
I just check out
Hit the sack, welcome back to my paradise
