

Somebody Loves You

The Snuts

It's a lovely day, rain clears from my feet again
The panic stations clear out from the streets today
It's a lovely day, now call your friends, your family
Somebody loves you, yeah, and that's all I'll say

Somebody loves you, yeah
(Somebody loves, somebody loves)
That's all I'll say
Somebody loves you, yeah
(Somebody loves, somebody loves)
That's all I'll say
Somebody loves you, yeah
(Somebody loves, somebody loves)
That's all I'll say
Somebody loves you, yeah
(Somebody loves, somebody loves)
And that's all I'll say

Never found the time to tell you girl I
Love you more than life itself, that's alright
'Cause I get wiser all the time, yeah
Never overestimate your problems
Grab 'em by the horns, I know you'll solve them
Someone loves ya, and that someone is me

Somebody loves, somebody loves
Somebody loves, somebody loves

It's a lovely day and I sure as hell don't feel that way
That everybody wants to feel, but that's okay
And that's a symphony, a revelry, run a dream, comically
Somebody loves me, yeah, and that's all I'll need

Somebody loves me, yeah
(Somebody loves, somebody loves)
That's all I'll need
Somebody loves me, yeah
(Somebody loves, somebody loves)
That's all I'll need
Somebody loves me, yeah
(Somebody loves, somebody loves)
That's all I'll need
Somebody loves me, yeah
(Somebody loves, somebody loves)
That's all I'll need

Never found the time to tell you girl I
Love you more than life itself, that's alright
'Cause I get wiser all the time, yeah
Never overestimate your problems
Grab 'em by the horns, I know you'll solve them
Someone loves ya, and that someone is me

Hold on tight, you're young and ready
Squeeze my heart and turn it steady
Break my bed and ride me heavy
Let me have our love, young, crazy

Never found the time to tell you girl I
Love you more than life itself, that's alright
'Cause I get wiser all the time, yeah
Never overestimate your problems
Grab 'em by the horns, I know you'll solve them
Someone loves ya, and that someone is me

Somebody loves, somebody loves
Somebody loves, somebody loves
(And that someone is me)
Somebody loves, somebody loves
Somebody loves, somebody loves
(And that someone is me)

Somebody loves, somebody loves
Somebody loves, somebody loves
