

## Party of the Mind

### The Sound

I invite you to the party of my mind  
An invitation to the party of my mind

Some talk, some laugh  
Some go out for air  
In the party of my mind  
They'll all be there  
All my friends will be there  
In the party of my mind

There's a room for us  
In the party of my mind  
A place to be, a place to be found  
A room without light  
A room with lights that blind  
These ideas I invite  
To the party of my mind

Won't you come in and invite love  
Won't you come in, invite your anarchist friend  
Won't you come in, anything can happen  
Won't you come in, stay till the end

There's a disturbance over by the stairs  
And her face looks round for me  
Her eyes say something's going wrong  
Some things aren't how they should be

I invite you to the party of my mind  
An invitation to the party of my mind

Some talk, some cry  
Some go out for air  
In the party of my mind  
We'll all be there  
Everyone will be there  
Everyone will be there
