All Day All Night

The Soundlovers

Some people dance in the sunshine And some people sing in the night Somebody follows the rhythm Moving the head to the sound.

Some people dance in the moonlight And some people sing in the rain Somebody follows the rhythm Feeling the beat through the vains.

R:All day, all night
Always, right now
Everyone moves to the music
All day, all night
Always, right now
Everyone's moving around.
R:=II=

Some people dance in the sunshine And some people sing in the night Somebody follows the rhythm Moving the head to the sound. Some people dance in the moonlight And some people sing in the rain Somebody follows the rhythm Feeling the beat through the vains.
