

Another Day

The Soundlovers

It's another day
it's another day
it's another day

it's another day for turning around
it's another day to get you down
it's another day for turning around
it's another day to get you down

your way - my way
a sunny day and a high way
'cause your way - my way
for you I can put myself down

you can feel it in the air
you can feel it around
you can feel in in the air
do you feel the vibe ?

It's another day
it's another day
it's another day

you say - my way
but your way I know it's the same
'cause your way - my way
the things you do
you know I do

it's another day
it's another day
it's another day

whatever and ever I say
you say it's true
whenever and ever i'm happy
I am for you
