

## Walking

The Soundlovers

Walking on the street  
I think about your dream  
No matter what you said  
'Cause everything I want  
Is just to live today

Don't tell me what is right  
Don't tell me what is wrong  
Open your wings and fly  
And stand here by my side  
But let me live this love

Walking on the sun take me there  
I wanna hear your voice in the air  
Let me see your hands when you dance  
Let me hear your song all night long

Walking on this land till the end  
I wanna hear your voice through the sand  
Let me see you hands when you dance  
Let me hear your song all night long
