

Beatbox

The Sounds

Wake up one day with a song in my head
In the basement a beatbox on my bed
Silver frame, claim to fame
Never made them quite the same
So I tip tap toe tapping down the street
On my way I saw Tony The Beat
This is the time to lose control
Everybody's here come on let's roll!

So turn it up and break it down
Come on bring that beatbox back
Tell me do you feel it?
So turn it up and break it down
Come on bring that beatbox back
Tell me do you feel it?
Hey!

Late that night I saw a woman in red
"Hey there honey!" that's what she said
Tried to move my feet up and down
But the DJ sucked I'm stuck to the ground
I wanna dance, dance to the beat
That's all I want that's all I need
This is the time to lose control
Everybody's here come on let's go!

Yeah you know that you want it 'cause you can't deny it
Yeah you know that you want it so don't even try it
And that's what I said now it's up to you
(Hey Schoolly, Thanks for the Hi-Hat!)
So turn it up, So turn it up, and break it down

Yeah you know that you want it 'cause you can't deny it
Yeah you know that you want it so don't even try it
Come on bring that beatbox back
So turn it up and break it down
Come on bring that beatbox back, back, b-back, back!
So turn it up and break it down
Come on bring that beatbox back, back, b-back, back!
Come on bring that beatbox back
Back, B-back, Back!
