

## Like a Lady

The Sounds

Talking smooth and play by rules, like a lady  
Hang on loose and always stay cool, like a lady

Listen to the songs and learn to sing along, on the radio, radi  
o  
Fire in my eyes and boys on my mind, they come and go, come and  
go

Kiss every man while you still can, like a lady  
And pull your self up and dance til' you drop, I'm your baby, b  
aby

Listen to the songs and learn to sing along, on the radio, radi  
o  
Fire in my eyes and boys on my mind, they're mine you know!

[Chorus:]  
Tonight, my baby  
We've got a love so strong  
Let the thing go on  
And it's alright my baby  
If it feels so good  
Than it can't be wrong

You kiss every man while you still can, like a lady  
You pull yourself up and dance til' you drop, I'm your baby

Listen to the songs and learn to sing along, on the radio, radi  
o  
Fire in my eyes and boys by my side, They're mine you know!

[Chorus x2]

Listen to the songs and learn to sing along, on the radio, radi  
o  
Fire in my eyes, and boys on my mind, they come and go, come an  
d go

[Chorus x2]
