

# Things We Do For Love

## The Sounds

It's like a thousand pounds of dynamite  
Exploded in my heart tonight  
I close my eyes and see your face  
And it takes me to a special place  
It's like a thousand pounds of dynamite  
Exploded in the sky tonight  
And heaven opened up its door  
I've had a taste but I want more  
I want you to want me

I need to hear you say it, like you mean it  
I wanna hear you say it, and make me believe it  
You're always dancing around about it  
While wrapping your chains around me

Oh  
The things we do for love  
The things we do for love  
Oh  
The things we do for love  
Are blinding us from the truth sometimes

It's like a thousand pounds of dynamite  
Exploded in my heart tonight  
You say all is fair in love and war  
But I've never felt this way before  
It's like a thousand pounds of dynamite  
Exploded in my heart tonight  
Now I'm trapped inside your mystery  
As you take another piece of me

Oh  
The things we do for love  
The things we do for love  
Oh  
The things we do for love  
Are blinding us from the truth sometimes

I want you to want me  
I need to hear you say it like you mean it  
I wanna hear you say it and make me believe it  
You're always dancing around about it  
While wrapping your chains around me

Oh  
The things we do for love  
The things we do for love  
Oh  
The things we do for love  
Are blinding us from the truth sometimes

I don't mind the occasional affection  
I'm a creature of love  
But when you turn and show the other side of you  
I don't want you around  
Dragging me down

Oh  
The things we do for love  
The things we do for love  
Oh  
The things we do for love  
Are blinding us from the truth sometimes  
I want you to want me  
I want you to want me  
I want you to want me  
I want you to want me  
Blinding us from the truth sometimes
