

## #1 Is Number Two

The Soviettes

You'll get left out if you reach the top  
You'll feel let down like you wanted more  
You'll get no love from the ones who should  
Love you the most but they're fading  
Never count on the ones who say, "I'll never tell so you can tell me now"  
Break it off cause they'll break your heart, they won't care about you  
But if you're wrong and they stick around  
They'll help me up when I hit the ground  
I'm careful about who I let in  
They say they care for me, don't they?
