

Cuff Wars

The Soviettes

When your eyes fall down you know you're like a crook
For a second we had everything it took
Nights forever long, we shut it off just right and we were wast
ing time
You know we could go, at a quarter to three? You're on
Fake it, say it's black, I know it's red you see
Time and time and time again it wasn't me? Yeah you know it was
We've gotta fix it fast, don't give up just yet
Well all you've gotta say is "you know we could go" at a quarte
r to three? You're on
