

Go Lambs Go!

The Soviettes

What did I do? Nothing!
What did I say? Nothing!
You push bullshit beliefs
Do you want the future you see?
Have you seen me? No!
You turned my heartache into your crusade
You say its truth, I say tirade!
Carry signs keep up the charade
I'll take the heat my bed's been made
Religious right it's not my way
And who are you to even say?
What did you do? Nothing!
What did you say? Nothing!
How many doctors have you offed?
How many kids will you adopt?
How many more can this world hold?
When you condemn birth control!
You hide behind false propaganda
Your group's of thousands
It's not your choice, it's mine, I've made it
I'll stand behind it every day
