

Breaking Point

The Specials

I'm here at breaking point
Mind and body tired
Those plans for happiness
Have all expired
The sales pitch from door to door
Says feed the rich and hang the poor
Twinkle twinkle little star
Point me to the nearest bar
I'll drown my sorrows with the rest
Do your worst, I'll do my best
Here I am, at breaking point

I'm here at breaking point
The pen has dropped
Progress would be wonderful
If only it would stop
The internet is free to surf
Measures intellect by girth
Here come another email
There goes another shemale
Social media is a trend
That will send us all
Around the bend

Heavy is the load
Of a creature ill-disposed
Of a man who finds the end
Before the start
It breaks your heart

Stand with me at breaking point
As riots hit the streets
Another toppled government
Will make the day complete
There goes another border
Here comes a new world order
It's time to call it quits
Before the future hits
With the help of God and a few marines
We'll blow this place to smithereens
Here we are, at breaking point

Heavy is the load
Of a creature ill-disposed
Of a man who finds the end
Before the start
It breaks your heart
