

# Alone

The Spencer Davis Group

My life's a puzzle, I've got peace of mind  
I find that the pieces fit together so fine  
There ain't no problem that I can't face alone  
I don't need no lawyer, I'm just not that in loan

And so I'll stay on my own  
And how I'll live is still unknown  
But I'll make everything come 'round my way  
That takes care of another day

Crazy people haunt me, they take me for a ride  
I get with the feeling that hurts me so inside  
Ain't got no brother, no woman or a friend  
That's how it suits me, and how I'll stay until the end

And so I'll stay on my own  
And how I'll live is still unknown  
But I'll make everything come 'round my way  
That takes care of another day

And so I'll stay on my own  
And how I'll live is still unknown  
But I'll make everything come 'round my way  
That takes care of another day
