

Moonshine

The Spencer Davis Group

What's up calling in our moonshine in the sky?
Daybreak headache, feel myself wondering why
Didn't I cry?
Wondering why shouldn't I try

What am I when I make the morning come?
Will I see that life has just begun?
What am I when I make the morning come?

Falling around I keep up into sound
See things that I've never seen
My hands feel so cold, I'm not really that old
Begin in the air, it's not easy

See my life moving, moving here in my eyes
Absent feeling calling 'round in the sky
It's in my mind
Nothing to hide, wondering why

What am I when I make the morning come?
Will I see that life has just begun?
What am I when I make the morning come?
