

Almost All the Way to Love

The Spinners

Can't you look in my eyes, don't you be so ashamed
You don't know me until there's no one to blame
We really kept, we kept each other warm
And there's not a thing we should be sorry for

And me, I feel proud
Nearly had it, you and I
We didn't get it all
But we gave it quite a try
Yeah, so close it hurts
What the whole world's dreamin' of
Almost all the way to love

Don't you worry 'bout me, it'll take a while, I'm alright
Just come lay by my side, stay for the night
I need your touch once again, before I go
Let's just say "goodbye" the way we said "hello"

And me, I feel proud
Nearly had it, you and I
We didn't get it all
But we gave it quite a try
Yeah, so close it hurts (we gave it a try)
What the whole world's dreamin' of
Almost all the way to love

Love, put your lovin', tender arms around me
(Put your arms around me) make believe that you just found me
And when I finally leave, let's just make believe
It's not forever, not goodbye

Yes, and me, I feel proud
Nearly had it, you and I
We didn't get it all
But we gave it quite a try
Yeah, so close it hurts (we gave it a try)
What the whole world's dreamin' of
Almost all the way to love

Nearly had it, you and I
We didn't get it all
But we gave it quite a try
Yeah, so close it hurts (we gave it a try)
What the whole world's dreamin' of
Almost all the way to love
