

# Four Hands in the Fire

The Spinners

Who has the right to know  
Why life's a steady flow  
Who can say what's right or wrong for people  
But there are times you know  
When things affect you so  
When you find it's someone you've been close to

Why try to sail that ship alone  
When I can be the friend you need  
There's a life inside you  
And it's a life you've gotta live cause

Four hands in the fire  
Might be kind of hard for some to see  
I wanna tell you now  
Four hands in the fire  
Tells me you're a natural human being  
What you got to do has got to be

One friend have you found  
They try to put you down  
They can't see the force of life that's for you  
But love has come to you  
What else is there to do  
You have chose to bring this next life from you

Why try to sail this ship alone  
When I can be the friend you need  
There's a life inside you  
And it's a life you've gotta live cause

Four hands in the fire  
Might be kind of hard for some to see  
Four hands in the fire  
Tells me you're a natural human being  
What you got to do has got to be

Four hands in the fire  
Might be kind of hard for some to see  
I wanna tell you one more time  
Four hands in the fire  
Might be kind of hard for some to see  
Four hands in the fire  
Might be kind of hard for some to see  
Four hands in the fire  
Might be kind of hard for some to see  
Four hands in the fire  
Might be kind of hard for some to see  
Four hands in the fire  
Might be kind of hard for some to see  
Four hands
