

Just to Be with You

The Spinners

Baby I can remember so vividly
The loneliness I've entertained for so long in my life
You know sometimes I
I just wanted to reach out and grab on to somebody
Yeah, anybody
But then some how I would always find the strength
To tell myself that err...
I still had to find my place in life
Well baby I thank God above for giving me both those things
Yeah He's given me a way to express myself
But most of all baby He gave me you
And I love you baby, I love you baby

Mmmm...
Move to the end of earth and I'll be there with you
Sail through a stormy sea and I'll sail on it too
No matter how hard I try
My love for you won't let me give up, oh no
I'll cross a thousand lands
'Cause baby you my loving kind, loving kind

Just to be with you
I would beg, steal or borrow, oh (Ooooh!)
Give up my tomorrow, baby
Baby, just to be with you
Just to be with you
I would beg, steal or borrow, oh (Ooooh!)
Sacrifice my tomorrow, baby
Baby, just to be with you

There is no grater love than what I have for you
Fly me to the planet, moon and you'll find me there too
No matter how hard I try
My love for you won't let me give up, oh no
I'll cross a thousand lands
'Cause baby you my loving kind, loving kind

Just to be with you
I would beg, steal or borrow, oh (Ooooh!)
Sacrifice my tomorrow
Baby, just to be with you

Just to be with you
I would beg, steal or borrow, oh (Ooooh!)
Give up my tomorrow, baby
Just to be with you
Seems funny don't it?
I would beg, steal or borrow, oh

In a world where everybody is trying to brake up
Here I am singing a song about folks trying to make up
We've come along way together
Baby just to be with you
I can remember when I brought back from California
Just to be with you
We toughed it out for a long time in my friends house
I would beg, steal or borrow, oh

But different from a lot of woman, you didn't pressure me
You said that we'd do what we could to do
Until we could do it like we want to do it
Baby just to be with you
Later on everything was a little bit better and we, err...
Just to be with you
Moved to the outskirts of town
I would beg, steal or borrow, oh (Ooooh!)
Remember when, err...
When old man who came along
Bringing a new love to our love
Baby just to be with you
Oh ho ho baby
Just to be with you
I just can't help it today
I would beg, steal or borrow, oh (Ooooh!)
'Cause you my better half, right
You keep me hanging on, girl
Baby, just to be with you
I just wana stay with you now
Just to be with you
I would beg, steal or borrow, oh (Ooooh!)
Give up my tomorrow baby
Baby, just to be with you
When times will get hard
Just to be with you
We made it
I would beg, steal or borrow, oh (Ooooh!)
Yeah, I wanna give you love now baby
I'll sacrifice my tomorrow yeah
Baby just to be with you
I know a lot of men wish they had a love like that
Just to be with you
One so fine, one so pure, girl
I would beg, steal or borrow, oh (Ooooh!)
To get it all the time
I'm gonna love you I do love you
I wanna love you pretty babe
Baby just to be with you
Fly me to the moon
Just to be with you
I would beg, steal or borrow, oh (Ooooh!)
Yeah I love you baby
Baby just to be with you
