

Move Along Train

The Staple Singers

(Move along train) you've got your heavy load
(Move along train) you've got your heavy load
(Move along train) you've got your heavy load
Because my Lord's coming and-a he won't be long
He's going to take me safely home

The Gospel train is coming
You know it's coming around the curve
And I can hear the whistle blowing
You know she's straining every nerve

(Move along train) you've got your heavy load
(Move along train) you've got your heavy load
(Move along train) you've got your heavy load
Because my Lord's coming and-a he won't be long
He's going to take me safely home

Tell that barroom lady
She better get her business right
Because the Gospel train is coming
You know it may be here tonight

(Move along train) you've got your heavy load
(Move along train) you've got your heavy load
(Move along train) you've got your heavy load
Because my Lord's coming and-a he won't be long
He's going to take me safely home
