

Dream On

The Statler Brothers

I'm wore out from apologizing sick and tired of compromising
The next word that you hear will be goodbye
I've had enough of talkin' bout it I might be sorry bit I doubt
it
If you think I'll sit home each night and cry

Dream on dream on dream on dream on
You think everything will be roses on your own
And life will get better when you're all alone
Dream on dream on dream on honey dream on
When the preacher comes by to console you I don't mean to say I
told you
But you'll shade it to make me look unfair
Then you'll lie outright to all the neighbors and tell you sist
er that I hate her
When all is said and done if you think I care

Dream on dream on dream on dream on
If some night in your sleep someone loves you tenderly
And when you wake up in the morning you've dreamed that it was
me
Dream on dream on dream on honey dream on

If you have a crazy thought sometime Miss me and think maybe I'
m
Somewhere all alone and missing you
Dream on dream on dream on honey dream on
Dream on dream on dream on honey dream on

Dream on dream on dream on honey dream on
Dream on dream on dream on honey dream on
