I've Had A Good Time

The Statler Brothers

Sometimes I find myself just sittin' all alone and wondering
Tryin' hard to figure out my life and what it means
It's not the things I never got the chance to do that matter
It's the things I took the chance to do that matter most to me
I've had a good time had a good life had a good home had a good wife
Had a little rain had a little sun had a little sin I had a little fun
I've been up on cloud nine been down on my luck
Make a few friends made a few bucks
Been fell in love a couple of times I've had a good time
I've had a good time had a good ride sometimes I lost sometimes I won
Wrote a few songs that still get sung I didn't give up and I didn't die young
I've been up I've been down I've been to the wall
But I've been blessed Lord through it all
Even fell in love two or three more times I've had a good time
I've had a good time had a good ride sometimes I laughed sometimes I cried
Sometimes I looked sometimes I touched sometimes I took just a little too much
Well I never look back got no regrets well maybe a few but even yet
I'd love to do it again just one more time I've had a good time
Let's sing this song one more time and have a good time
I've had a good time had a good ride...
