

They Can't Get You Out Of Me

The Statler Brothers

They took you out of the the country
They took you out to see you things you wanted to see
They took you out to the places you wanted to go but they can't
take you out of me
They took you out of your plain dress
They took you out and made you what you wanted to be
They took you out of my Saturdays and Sundays but they can't ta
ke you out of me
They took you out of our good times they took you out of the th
ings we used to do
They took you out of my reason for living and I wonder did they
take me out of you
They took you out of our hometown they took you out to give you
opportunity
They took you out of the places we were goin' but they can't ta
ke you out of me
They took you out of our good times...
Oh I wonder did they take me out of you
