

# Long Way Down

The SteelDrivers

I thought that you were sent from heaven  
You had me floating on a cloud  
But tonight my sky is falling  
And it's a long way down  
It's a long way down

Now you can't lie, cause girl I caught you  
You can't deny, you been messing 'round  
Where you're going there ain't no ice water  
And it's a long way down  
It's a long way down

So far down that it ain't got a bottom  
Thought you had wings but I guess you ain't got 'em  
Fallen angel don't look now  
Ooh... it's a long way down

Don't look to me to be your savior  
Girl we both know where your soul is bound  
It's headed south just like the love you gave me  
And it's a long way down  
It's a long way down

So far down that it ain't got a bottom  
Thought you had wings but I guess you ain't got 'em  
Fallen angel don't look now  
Ooh... it's a long way down

So far down that it ain't got a bottom  
Thought you had wings but I guess you ain't got 'em  
Fallen angel don't look now  
So far down that it ain't got a bottom  
Thought you had wings but I guess you ain't got 'em  
Fallen angel don't look now  
So far down that it ain't got a bottom  
Thought you had wings but I guess you ain't got 'em  
Fallen angel don't look now  
Ooh... it's a long way down
